an artful blend

reflectionist

Crafted with old-style traditions of France with the best winemaking techniques of Napa, Amlés Wines combine artistry and a profound appreciation of the past with our passion for philanthropy and enlightenment.

“We aspired to make a wine to honor our love of art and history while at the same time, do something for the greater good. The creation of Amlés Wines was the perfect answer.” – Proprietor Scott Miller

Reflectionist is an artful blend influenced by classic wines with a modern outlook. Inspired by Reflectionism – the belief that people and their thoughts are reflected in life’s experience – winemakers Philippe Melka and Maayan Koschitzky have created an extraordinary red wine with a foundation in honored traditions while exploring the constant pursuit of something new. Reflectionist artist JD Miller has translated the experience of the wine onto canvas and the label that adorns each bottle. The result is an expressive wine to celebrate life’s special memories and to create remarkable new ones.

TASTING NOTES

This wine has the seduction and purity reminiscent of a great vintage. Sourcing from three distinct sites, the wine displays the diversity of soils from some of Napa's most iconic locations.

Aromas of Asian spices, vanilla bean and savory undertones lead to a cascade of flavors such as mocha and blackberries. The mouthfeel is plush and dense with a deeply textured fullness.

The tannins are firm, but over time in the glass, give way to an interwoven polish. The balance is exquisite, providing a sense of instant pleasure with a refined persistence in the finish.

Portrait

Crafted with old-style traditions of France with the best winemaking techniques of Napa, Amlés Wines combine artistry and a profound appreciation of the past with our passion for philanthropy and enlightenment.

“In order to craft something uniquely special, we looked to our past so we might create a wine for the future.” – Winemaker Philippe Melka

Portrait, our grand cru Cabernet Sauvignon, is inspired by our belief that the past holds the keys to our future. Sourced from the finest heritage vineyard sites throughout Napa Valley, Portrait harkens back to wine made generations ago by using techniques and philosophies from historic French Bordeaux-style winemaking combined with modern Napa Valley trends. The label features vintage portraits of individuals who have had a lasting impact on wine in New World America, honoring their drive to follow their passion. A hand-painted swatch of color by artist JD Miller makes each bottle a unique work of art and celebrates the revolutionary contributions of the individual portrayed while acknowledging the fallibility of every hero. Portrait is born from and for experience – for remembering the experiences of a life well-lived while embracing new beginnings and life’s inevitable changes.
